6G74 reliability | Mitsubishi 3000GT & Dodge Stealth Forum

following problems occurred. - stopped at startup. - after a few attempts to start the engine, the faulty light on the engine. electronics came on. Diagnosis has been found on the air intake flap. - There is no power supply at the airflow plug. - The engine runs at 3000 rpm without the possibility of reacting .

technical assistance on the engine problem mitsubishi ...

The 6G74 is a solid engine, and I'd be more concerned about your air filter than your oil. Personally, I drive in dusty conditions and replace my air filter every oil change. Other than that, keep up with your timing belt and fluid changes (including coolant) and this is a bulletproof engine.

Mitsubishi 3.5 liter DOHC 6G74 issues? - Bob Is The Oil Guy

Sounds like I have a very similar problem as yours (and balsaid) with my 3.5 GDI 6g74. Can you please send me the name/number and any details of your fundi in Dar? I've worked my way through 3 different fundis already, all of whom have succeeded in creating more problems than the last. Many thanks, Keith

GDI motor Mitsubishi. Idle problem . How to fix - YouTube

The 6G7 series or Cyclone V6 engine is a series of V6 piston engines from Mitsubishi Motors. Five displacement variants have been produced from 1986 to present day, with both SOHC and DOHC, naturally aspirated and turbo charged layouts. While MIVEC variable valve timing has also been implemented in some versions the 2.5, 3.0 and 3.5 L versions were also available with gasoline direct injection.
