Download Ebook Engineering Wow

Engineering is a primary crafting profession that can create many useful, unique and amazing items, as well as junk (but often explosive junk!). Engineers can create helpful items for generally all classes to be used in PvE or PvP. To counterbalance this usefulness, most items crafted by engineering require engineering skill to use, and many of these items come with a chance for unexpected ...

Hey guys, i'm looking at leveling a hunter first and have some questions about professions, namely engineering. Would people recommend picking up engineering early and leveling during the leveling process, or to pick up something else and swap at level 60? Also, what would people recommend to pair with engineering? Also one more question to generate some more discussion: Hunters mains to be ...
