You slip the Optoma PK-301, the company's newest pico projector, into your coat pocket, and off you go. As long as ambient light can be controlled, the PK-301 is bright enough for intimate settings. It offers a digital input via an optional adapter cable, and if you store your images in the projector's internal memory, you won't need any external sources at all.

My wife needed a projector to draw large murals on some walls and wanted a cheap projector to throw the pictures on the wall to trace. The Pico projectors fit the bill on size and price. For a little more money we decided to buy the Optoma PK301 since it is the brightest Pico projector and has an mini HDMI input to connect to the laptop.
