An important element in people photography is knowing your subjects well enough to be able to anticipate what they are going to do. It's the only way you are going to be able to get pictures of it...

People and Portrait Photography Tips -- National Geographic

Make sure the nose is tilted down until that doesn't become the focus. Shooting upwards rarely has the effect you want to achieve, and it is a big no-no in people posing and photographing women. This angle adds weight and creates something unflattering. Shoot from eye level, or slightly higher.

A Guide To Posing People in Photographs | Tips for Better ...

When photographing people candidly (which is my preferred style as it won't distract anyone from the main event and produces more natural results) it's important not to use flash at all where possible. This will result in some really nice, soft, shallow photos that work well. As a general rule, keep your use of flash to a bear minimum.

The Definitive Guide To Corporate Event Photography

If you want to become an expert using filters, I recommend you to read our definitive guide on long exposure photography with lens filters. Do a bracketing (8) Even if you use filters, the camera may not be able to capture the scene in a single exposure. In that case, the solution is do a bracketing.
