Refrigeration and Air Conditioning Technology, Whitman ...

The modern air conditioning system cools an indoor space by using the refrigeration cycle. This refrigeration cycle works by controlling the level of energy in the system's refrigerant: Some parts of the system have energy-packed refrigerant that is ready to release heat, whereas other parts have energy-depleted refrigerant that is ready to absorb heat.

17 reviews of Irvine Air Conditioning & Refrigeration "Robert's AC service was hands down nothing but excellent! He was very professional in every aspect. He was prompt, neat, very well organized and straight to the point. No nonsense and all business. He was straightforward with our AC issue (broken compressor) and quoted us a very fair price for his work.
