Service Contract - SeaCare Solutions Service Contracts provide full service coverage to refrigeration units by adding pre-trip inspections and consumables to a full unit warranty package. Better still, Carrier organizes and manages maintenance and repairs through the service center network, saving customers the task of doing so.

Service & Support - Carrier

Commercial refrigeration systems typically have three manual stem service valves. A suction service valve and a discharge service valve are located on the compressor. A service valve called the king valve is mounted on the outlet of the receiver.

Refrigerants and the Refrigeration System

12 R-290 SERVICE MANUAL Installing Service Piercing Valves Line tap valves can be used to access the refrigeration system. Line tap valves should be temporarily placed on the suction and liquid process tubes. Leaving valves on the system may void warranty. IMPORTANT: Never leave piercing valves of any type on an R-290 refrigeration system.
