Plastic pipe welding plays an important role for pipeline installers. ROTHENBERGER offers a range of equipment, in the form of butt welding, electrofusion welding, socket welding and hot gas welding. The technology is suitable for many types of plastic pipe including PE, PP, PVDF, plus many more.

Plastic pipe welding - ROTHENBERGER

MIG welding is useful because you can use it to weld many different types of metals: carbon steel, stainless steel, aluminum, magnesium, copper, nickel, silicon bronze and other alloys. This class only goes over how to fuse mild steel, but your welder's manual will have advanced instruction on how to weld other materials.
